Pool Renovations – Public Safety During Construction and Demolition Works

The public are reminded, that whilst the pool is open the area around the pool building is a “building site” and, for your safety and the safety of contractors on the site the public must remain outside the fenced area at all times.

It has also been reported that an incident occurred on Saturday 20th October that involved the discovery, removal and disposal of a small quantity of bonded asbestos (Fibro) material. Please note that the incident has been investigated and at no time was there any threat to the public from the work being undertaken.

Jeff Sowiak
General Manager.
